

## High quality egg products

Balticovo is one of the leading producers of fresh eggs and egg products in Northern Europe – our hens lay more than 700 million eggs per year. 50 years of experience in the egg industry and modern equipment have helped us become one of the leaders in our field of expertise.

Balticovo's quality control is carried out from the production of bird feed, poultry farming and egg production to sorting, packing and the production of various egg products.
